**#63302 Model WS6 Shop Vise**  
**#63304 Model WS8 Shop Vise**  
**Mounting Template**

**⚠ WARNING: Mounting Template for Reference Only**

**For exact mounting dimensions, please refer to the Bench Vise Mounting Dimensions document included with this product and found online at [wiltontools.com](http://wiltontools.com)**

1. Select the circle that matches your vise model.
2. Tape the mounting template in place. Make sure the vise base will not overhang the edge of the workbench when mounted.
3. Transfer the four (4) hole centers with a center punch. Make sure the underside of the bolt hole locations is clear of legs, brackets, drawers, etc.
4. Drill four (4) 9/16" diameter holes.
5. Mount the vise with four (4) 1/2" diameter hex cap bolts, 2 inches longer than the benchtop thickness. **Use minimum Grade 5 bolts.**
6. Secure the vise with washers and nuts.
