

DOMINATE EVERY PASS

37" WIDE BELT SANDERS

OVERVIEW

When the work keeps coming, your equipment can't be the weak link. The Baileigh 37" Wide Belt Sander series is built for shops that need serious material removal, consistent finishes, and dependable uptime shift after shift. From deburring and slag removal to precision finishing and surface prep, these machines are engineered to keep production moving.

With heavy-duty construction, automatic setup features, integrated safety systems, and application flexibility across both models, the WBS-37 series gives manufacturers the performance they expect and the reliability they need. For shops running smaller parts, the WBS-37V adds expanded short-part capability to keep the workflow moving. Add Baileigh Lifetime Technical Support, and you've got more than a machine. You've got a partner built to help keep your operation running.

IDEAL FOR

- Fabrication Shops
- Precision Machining Operations
- MRO & Repair Facilities

THE BAILEIGH ADVANTAGES

- **PERFORMANCE THAT DOESN'T BACK DOWN.** Heavy-duty construction and a powerful 10 HP motor give the WBS-37 series the muscle to tackle a wide range of materials and applications. Built for production environments, these machines deliver consistent results pass after pass while standing up to the demands of everyday use. And with Baileigh Lifetime Technical Support behind every machine, help is there when you need it.
- **WORK SMARTER. FINISH FASTER.** Setup shouldn't slow down production. The WBS-37 series features automatic height adjustment, a powered table lift, thickness sensing technology, and a user-friendly control interface with programmable presets. For shops running smaller parts, the WBS-37V adds 2" minimum part length capability, creating fewer limitations and more opportunities to keep work moving.
- **SAFETY COMES STANDARD.** Safety isn't an upgrade. It's built in. The WBS-37 series is UL 987 Certified and equipped with an emergency stop, quick-stop safety bar, door interlocks, and available dry or wet dust collection options. Whether you're processing steel, stainless, non-ferrous materials, or plastics, operators can work with greater confidence and compliance.

37" WIDE BELT SANDERS

MODEL NO.	WBS-37	WBS-37V
STOCK NUMBER	BA1-11225	BA1-12446
SANDING BELT SIZE	37" x 60"	37" x 60"
MAIN MOTOR	10 HP	10 HP
ABRASIVE BELT SPEED	2700 FPM	2700 FPM
CONVEYOR SPEED	2-26 FPM variable speed	2-26 FPM variable speed
VERTICAL LIFT MOTOR	1/2 HP	1/2 HP
MAX PART WIDTH	37"	37"
WORKING THICKNESS	1/32" - 6"	1/64" - 6"
MINIMUM PART LENGTH	8"	2"
FLOOR TO TABLE HEIGHT (IN.)	31-37"	31-37"
READOUT	Digital	Digital
VACUUM MOTOR	N/A	5 HP
DUST PORT DIAMETER (IN.)	5"	5"
DUST PORT QTY.	1	1
AUTO BELT TRACKING	Yes	Yes
AUTO SANDING HEIGHT ADJUSTMENT	Yes	Yes
DOOR INTERLOCKS	Yes	Yes
WORK LIGHTS	Yes	Yes
CSA/UL CERTIFICATION	Yes	Yes
WARRANTY	1 year parts	1 year parts
AVAILABLE ACCESSORIES	MODEL NO.	STOCK NO.
5 HP DRY DUST COLLECTOR – 220V	MDC-550	BA1-12448
5 HP DRY DUST COLLECTOR – 460V	MDC-550	BA1-12449
5 HP WET DUST COLLECTOR – 220V	MWDC-550	BA1-12450
5 HP WET DUST COLLECTOR – 460V	MWDC-550	BA1-12451

WBS-37V: CLASS-LEADING 2" MINIMUM PART SIZE

Sand, deburr, and finish smaller components that many competitive machines can't handle.

HEAVY-DUTY CONSTRUCTION WITH 10 HP PERFORMANCE

Deliver consistent finishes across a variety of materials while standing up to demanding production environments.

AUTOMATIC HEIGHT ADJUSTMENT WITH PROGRAMMABLE PRESETS

Reduce setup time, eliminate guesswork, and achieve repeatable results from operator to operator.

INTEGRATED SAFETY FEATURES

E-stop, quick stop bar, and door interlocks increase operator safety.
